WHO AM I?

I'm last year student of first degree of computer science at Wrocław University of Science and Technology.

Spring boot DRF React.js Angular

PROJECTS

30/07/2018 -
- 07/09/2018

Foosball

Nordic Consulting & Development Company

Project created during unpaid internships at NCDC. Application created as result of the project makes it easier to manage scores of foosball games. Goals are automatically counted during game and displayed on tablet screen. If a user wants to have history of their games saved they can create account in external user service and then login to foosball application by typing ones username or using NFC card. Application is also connected with external tournament system which allows to create foosball tournaments and have its games managed by our system.

Spring boot / React.js / Jenkins

03/2019 -
- 09/2019

Inventory of Supplies

Innovative Projects by Nokia

Project created during Innovative Projects by Nokia. Project consisted of web application and mobile application. Application allows to manage supplies in Nokia's Makerspace. It allows to generate QR codes for supplies and to generate stocktaking reports. Mobile application allows to harness smartphone's camera for scanning of QR codes during stocktaking.

Django / Django Rest Framework / React.js / React native

Kanban board

Personal project

Web application allows to create boards useful in Kanban method.

Django / Django Rest Framework / React.js
